## Making a difference to the future of your practice.

Our combined record of innovation, quality and reliability will enable us to drive **smarter technology and greater efficiency** into every area of your practice, from dental chair to restorative materials.

# For your prophylaxis workflow

Choosing KaVo Kerr means you can now experience peace of mind and efficiency in your prophylaxis procedure, from patient preparation to diagnostics.

## Patient preparation

### Kerr **OptiView**

Comfortable lip and cheek retractor for an unobstructed view.

## Air polishing – supragingival

### KaVo **PROPHYflex 4**

Turn air polishing into a pure joy with the new PROPHYflex 4 in three colours: Wave, Lime or Flamingo.

### KaVo **PROPHYpearls** – Neutral

For an all-round clean and gentle prophylaxis. Spherical shapes provide optimum cleaning.

### KaVo **PROPHYpearls** – Selection

A selection of pleasant fruity and varied flavours: orange, mint, peach and black currant.

## Air polishing – subgingival

### KaVo **PROPHYflex 4 - Perio Kit**

For safe, focused and gentle subgingival treatments.

### KaVo **PROPHYflex Perio Powder**

Efficient biofilm management in periodontal pockets.

### Kerr **Perio-Probe**

Easy to use. Colour-coded for a fast and qualitative evaluation of periodontal pockets.

# Convenient air polishing solutions in 1 box.
