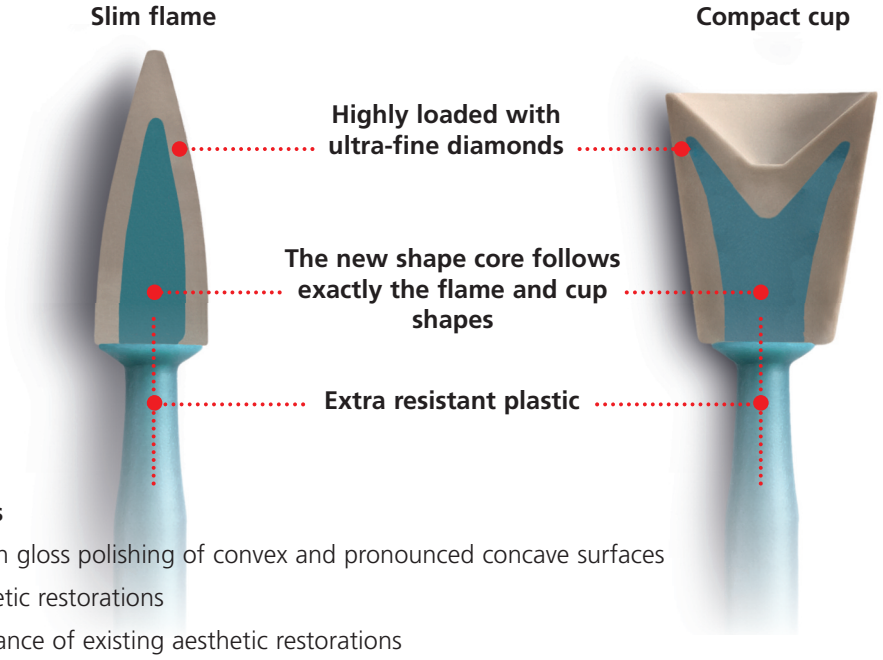
Intensiv UniglossPolisher

Pat.Pend.EP10162150.6

Scientifically proven and clinically tested at the University of Zurich, Switzerland

New!

Shape stable flexible Diamond Polymer Polisher for high gloss polishing of aesthetic restorations



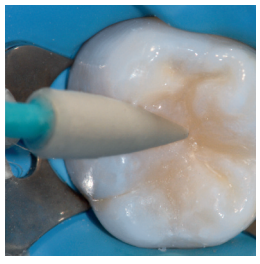
Indications

- Final high gloss polishing of convex and pronounced concave surfaces of aesthetic restorations
- Maintenance of existing aesthetic restorations

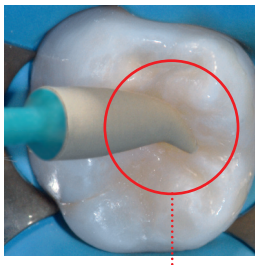
Benefits

- Stable form of flame and cup shape during multiple application
- Superior gloss effect and minimal surface roughness
- Complete fissure polishing thanks to flexible but stable point

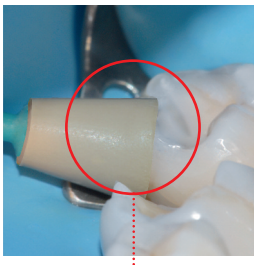
Highly smooth and shiny surfaces of aesthetic restorations continue to be the essential requirement for their long life-span as well as improved aesthetical aspects.



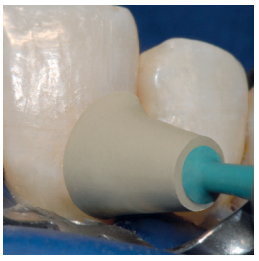
Clinical pictures:
Dr. Simona Giani, Varese, Italy



Flexible but stable tip even deep into the fissure



Stable compact cup for cusp polishing



“The tip remains a tip even with multiple uses!“
